[World Energy Outlook Highlights Continued Dominance of Diesel Powering Global Economies Well Into the Future](#)

The World Energy Outlook (WEO) finds that diesel fuel will remain the “dominant” growth fuel between now and 2035, according to the International Energy Agency (IEA), the author of the November 2012 [report](#). “The IEA report findings reinforce the importance of diesel as a fuel and technology well into the future and further highlight the potential for continued gains in diesel energy efficiency around the globe,” said Allen Schaeffer, the executive director of the [Diesel Technology Forum](#).

[Diesel Engines Target Stationary Standby Electric Power Market](#)

A new range of diesel engines targeting the stationary standby electric power market has been launched by Perkins. Designed to meet key market nodes, the new 1600 Series

ElectropaK satisfies an important customer demand for power between the current Perkins 1106D and 2000 Series range.

[Audi launching TDI Clean Diesel across model line in 2013](#)

Audi will roll out diesel versions of the A8, A7, A6 and Q5 at the Los Angeles Auto Show next week. On the heels of news that BMW will introduce diesel engines in virtually all models, Audi will go head to head with Bavaria and Mercedes-Benz with TDIs.
