Diesel Master Course

April 24-28
Las Vegas, NV

Register by March 17th and receive two seats for the price of one!

This course is designed to instruct the technician description and operation of the diesel engines found on Ford, GM and Dodge trucks. The diesel engines which are covered are the Dodge Cummins 5.9L CR and the 6.7L. The GM Duramax 6.6L, Ford Powerstroke 6.0L and the 6.4L. Emphasis will be placed on the use of service information, the scan tool, programming procedures. The use of SCR (Select Catalyst Reduction on newer trucks brings need to discuss and instruct on operation and repair. Emphasis will be placed on the technician to follow a diagnostic strategy.

Course Objective: Given the training, service information and tools, the technician will repair and diagnose Powerstroke, Duramax and Dodge Cummins diesel drivability complaints. Information provided will aid the technician the ability to follow a diagnostic strategy.

Length of course: Five days

[New Chevy diesel brings global engineering to U.S. buyers](#)
"The 52-m.p.g. diesel engine on sale now for the 2017 Chevrolet Cruze makes a powerful argument for the benefits automakers and their customers get from global engineering and manufacturing."

[Porsche Panamera 4S Diesel review: world's fastest diesel driven](#)
"More car than you will ever need. Too much car, quite frankly, in the best possible way. It's the all-wheel drive, bi-turbo V8, 627lb ft, 177mph Porsche Panamera 4S Diesel. The fastest diesel road car in history. All five metres, 2,125kg and £91,788 of it."

[Bentley Bentayga Diesel \(2017\) review](#)
"The design? In-your-face brush, but apparently that's what the clientele craves. Marc Bolan would have loved it. The packaging? First Class up front, Business Class in row two and now, with the Bentley Bentayga's seven-seat option, DC-3 in the back. Even gregarious soccer moms are better off with the standard five-seater. The price? Don't let the

As requested, we are returning to the Riviera Cancun!

£135k tag fool you. Our fully equipped test car listed at over £187k..."

At this event, recognized speakers in the diesel industry will provide an extensive view of the technological advances within our industry. We will hold the Exhibit Hall of Parts that gathers manufacturers and sellers of the diesel injection systems from several countries. Your participation is very important to us and we want to provide an experience for you to make your companies more profitable and competitive in today's market place!
