### Duramax 6.6L Training

**May 9 & 10, 2017**  
**Windsor, WI**  
**\$350.00 ADS Member**  
**\$500.00 Non-Member**  
Fee includes books and materials.

The Duramax 6.6L engine diagnostic training is now available! The Duramax engine has evolved and has many versions which have changed since it was introduced in 2001 model year. Tony Salas will be instructing you on the older LB7 to the newer LML Duramax Diesel. Tony has been involved with the Duramax6.6L and continues to train technicians in the Diesel repair world.  
Instruction will cover the following:

- Which are the Duramax engines? LB7, LLY, LBZ, LMM, LGH and LML.
- Common rail fuel injection system used, components and diagnosing.
- Engine design and differences, key items to know when repairing this engine, disassembly procedures, checks and assembly. Review key components.
- Cooling system issues. He will demonstrate common mistakes technicians make with the cooling system, proper repair and filling.
- Turbocharger operation- Early wastegate Borg-Warner to the variable nozzle Garrett style will be explained and we will review common diagnostic checks.
- Programming and the use of service.gm.com. Confirming the latest updates and learn how to program using the scan tool.
- Service information review. Know how to use the service information from GM and other service information providers. Diagnose diagnostic trouble codes properly.
- Network diagnosis, review the CAN system and the GMLAN how they are set-up.

## May

### 14-18

### Hotel Now Sapphire Riviera Cancun

As requested, we are  
returning to the Riviera  
Cancun!

At this event, recognized speakers in the diesel industry will provide an extensive view of the technological advances within our industry. We will hold the Exhibit Hall of Parts that gathers manufacturers and sellers of the diesel injection systems from several countries. Your participation is very important to us and we want to provide an experience for you to make your companies more

1

- Instruct common procedures to follow when diagnosing these diesel engines.
- Review use of Tech 2 and Tech 2WIN scan tools. Discuss aftermarket scan tools such as the Snap On Verus.

This is a two day class which will cover extensively these engines and demonstrations will include items and techniques you can use tomorrow when diagnosing and repairing these trucks. Case studies will be covered.

**IMPORTANT NOTE:**

Various telemarketing firms with names like Corporate Booking Services Company (CBS International), Global Housing Services Corporation, National Travel Associates and others have contacted ADS attendees in the past to solicit hotel reservations for the ADS International Convention & Tradeshow.

None of these companies are affiliated with ADS or the Wynn Las Vegas. They are not authorized to book rooms in the name of ADS. There is great risk in booking hotel rooms at the Wynn or other hotels outside of the ADS website link. At some recent shows in Las Vegas, attendees were contacted, made reservations and put deposits down through a similar agency. The agency went out of business prior to the show and all people with reservations made through the third party lost their deposits. In addition, they had no room reservations for that show.

The only secure method of reserving ADS rooms at the negotiated rate is through the ADS link.

[Bentley Bentayga diesel review -Is it the ultimate luxury SUV?](#)

"Bentley takes the momentous step of introducing its first-ever diesel-powered car in the form of this new Bentayga off-roader, at the very moment that the world and British Government seems to welcome diesel cars with all the warmth of the child catcher from Chitty Chitty Bang Bang. While actual legislation penalising modern diesels (which are cleaner than most despite what many politicians might think) is still thankfully some way off yet, there's no doubt that public opinion is swinging generally against them."

[Diesel is the New Alternative Fuel](#)

"The dominance of diesel fuel has not waned in the school bus industry. Nearly 93 percent of all school buses purchased in the United States and Canada still operate on diesel fuel, despite a higher-than-ever focus on alternative fuel. New lower-emissions diesel engines gearing up for launch in just a few months are expected to further cement diesel's position as the industry's fuel of choice."

[Diesel Crisis In Europe Threatens Financial Smack For BMW, Mercedes And Audi](#)

"Diesel's sudden fall from grace is a financial problem for Europe's car makers generally, but the German upmarket

**2017 ADS  
International  
Convention &  
Tradeshow**

**"Owners Only  
Meeting"**

This years ADS International Convention and Tradeshow will offer a wide variety of New

Seminars, in fact the most ever. A new addition to the Schedule will be an "Owners only Meeting", sponsored by the Business Management Committee. Owners brain storming with Owners, a meeting where you, the Owner of a service dealer shop, can discuss whatever you want, with Owners like yourself, NO TOPIC is off limits (as long as it is within the [ADS Antitrust Guidelines](#)). As Owners, it is you steering your company into the future with the ever changing industry and its demands. Be part of the solution and plan to attend. Owners only, Wednesday from 4:30 until 5:30. Refreshments will be served.

As Committee chairman, I want to apologize for any misleading comments. Our committee did not intend in any way to mislead anyone as to the content that will be discussed. Please RSVP to [Warren Stewart](#) to get your "Admit One" ticket.

manufacturers are especially vulnerable because diesels represents such a huge proportion of their sales."
